14 July 1966

MEMORANDUM FOR: Executive Officer/DDS&T

SUBJECT : Your Inquiry Concerning DD/S&T Involvement in the Attached Paper

25X1A 1. The attached paper was prepared by the Collection Guidance Staff of the DDI at the request of Col. White. The original paper, as you know, was coordinated with this Directorate and was signed off by the DD/S&T. 25X1A The present paper was brought to this Directorate by [redacted] 25X1A who discussed it with [redacted]. According to their records, [redacted] 25X1A stated he saw nothing wrong with the responses as written and had no objection to any of the text but that he did not wish to go on record as 25X1A either approving or disapproving the document. Since at that time [redacted] 25X1A in his capacity as Director/Reconnaissance/CIA, was considered to be a component of and therefore to represent the DD/S&T, no further coordination with representatives of this Directorate was attempted.

2. For your information the basic question was presented to the USIB last week by General Carroll who recommended that the TKH controls be continued through the balance of this year at which time a new study, which would take into consideration the effects of the new TKH sanitization manual would be conducted. The Department of State refused to buy this approach and requested that it be discussed at that meeting. As the result of this discussion it was decided to continue TKH controls until the first of the year at which time a study group, along the lines of General Carroll's recommendation, would be convened. Meanwhile another group under the direction of the Chairman/COMOR would begin immediately to investigate the feasibility of removing TKH4 material from the system. The members of this group have not been identified but will be composed 25X1A of CIA, State, DIA, and NPIC [redacted]

25X1A [redacted]
